

## ENGLISH

Children will begin to be more confident and fluent in their reading as we continue our phonics journey through the different sounds.

We will also learn how to recycle with Percy and make sure Sophie doesn't get eaten by a tiger with our engaging stories *One Snowy Night* and *The Tiger Who Came to Tea*.

## ESPAÑOL

A través de fichas, vídeos y juegos trabajaremos el reconocimiento de grafías y sus correspondientes fonemas.

Durante este período incluiremos la Z, J, GE, GI, Y, LL y Ñ.

## TOPIC - HISTORY

We will travel in time to the earliest known period of human culture, the Stone Age.

Children will be involved in learning facts and creating their own cave paintings and prehistoric jewellery.

Year 1  
Spring Term 1

## MATHS

We will continue to consolidate number bonds to 20 and start adding and subtracting two-digit numbers together.

Children will be introduced to worded problems, learning strategies to pick out key vocabulary.

## MUSIC

Children explore changes in tempo combining steady beat with rhythms as well as using their voices, movements and instruments as a form of expression.

## Science

Children will begin to recognize the differences between living and non-living things as we experiment with plants and understand their main parts and functions.

## P.S.H.E.E

During this half term, children will learn the importance of respecting different beliefs and opinions through conversations, videos and images.

## ART

Children will be using natural materials such as dry leaves, clay and charcoal to recreate woodland animals and prehistoric symbols.

## P.E.

Children will explore movement using their body to copy and create an original sequence with creativity and body control.
